

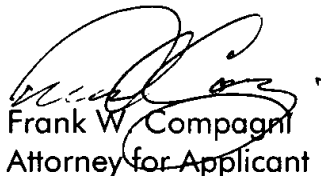

FIGS. 12A, 12B and 12C. The following claims read on Species I, including claims 1-14, 21 and 23.

It is further noted that the Office Action was accompanied by Attachment for PTO-948 (Rev. 03/01, or earlier) for correcting the drawings. The Applicant points out, however, that no objections or rejections were made or noted by the Examiner in the Office Action and no other indication of defects in the drawings were noted by the Examiner or the Official Draftsperson. Accordingly, the applicant has not provided herewith any amendments to the drawings and respectfully submits that the drawings, while informal, are acceptable for examination purposes.

CONCLUSION

The Examiner is welcome to call the attorney of record, Frank W. Compagni, at (801) 478-0071 if further discussion of this matter is warranted. Should any other additional adverse action be necessary on the application, the Examiner is also welcome to contact Mr. Compagni so that such matters may be resolved as expeditiously as possible.

Respectfully Submitted,

Frank W. Compagni
Attorney for Applicant
